

## Statement on prohibited substances

### *Capsugel Licaps® products*

Based on suppliers' documentation, Lonza raw material qualification process allows to guarantee solid data substantiating the safety of all ingredients used in Licaps® bulk capsules according to European food regulations in force.

Lonza doesn't knowingly handle any substances which would be considered prohibited in sport, and takes every possible precaution to ensure that the Licaps® bulk capsules manufactured within our Colmar's facility aren't contaminated with such substances.

In that respect, Lonza hereby certifies that none of the substances mentioned in the List of Prohibited Substances and Methods – published by the World Anti-Doping Agency (WADA) – are used in the manufacture of Licaps® bulk capsules.

In addition, none of these substances are manufactured, packaged or stored within our Colmar's facility.
